

Life Member – Trese Young

What is Trese Young's favorite race number? OK that is a trick question, Trese has never been a racer. That said, she would say her favorite number was "48" her husband George's number.

Although not a driver, Trese has nevertheless been very involved with the club. As a competitor she would be the navigator on rallies while George drove. Trese's real strength is in the kitchen and in her early years with the club she helped with lunches at Ascutney. In 1980 Trese was given the Bob Heath award as recognition for her contributions. More recently, and for many years, she has provided jams for the club's annual Holiday Banquet. She and George have also provided a wonderful gourmet food basket for the raffle at the banquet.

Stepping away from food we might note that Trese has been the Executive Secretary and has always been supportive of the club. As noted she has done rallies with George and considers these her favorite events. In particular Trese likes benefit rallies and of course the one benefitting the charity started in her son's name was of particular importance. Next to rallies she enjoys the fun of hillclimbs not just on the hill but also in the gatherings in the camp ground at days end, many friendships were formed there. Speaking of friends and mentors, Trese considers Jerry and Linda Venne and Tom and Judy Fry as early friends. Also special are her husband George (of course,) brother in law Drew, and Paul Giblin. While Trese doesn't have a favorite race car she does like George's Mustangs.

The Sports Car Club of New Hampshire is lucky to have Trese Young as a Life Member. She has contributed considerably with her help at events, as a club officer, and with ability to keep everyone happy. It is important to note the warmth Trese brings to any event.
