

Here is this week's History Moment - OK I'm cheating here, if you had been to the June Club Meeting you would have heard me speak about this one. I wanted to get this in while we were still in June. Here we have the month of June from the club's 1990 calendar. Note that the business meeting was the second Friday of the month back then. You will see little cars on the calendar to indicate the Burke Hillclimb, a Tenney Mountain Auto-X, and the Mt. Washington Hillclimb. Of special interest to me was the picture of a race VW. The picture was used in a 1981 'Steering Wheel' and was drawn byME! It looked a lot better before it was copied. By the way, you are quite welcome to join us at the club meetings, First Wednesday of the month.
