

Your History Moment - Having just had our first Auto-X at Canaan, here is an excerpt from the 2015 History telling about our first Canaan event. - The surprise event? In August Dave Delgenio, manager of a new "club type" road course paid a visit to the business meeting. The track was built at the site of the old fairgrounds in Canaan, NH. Dave told the club about the track and it's mission statement and he offered the club a date of September thirteenth to run an event. The club accepted and 46 drivers signed up for the event. There was considerable debate about whether or not to allow novice drivers. Some felt that the high speed would be too much for new drivers. Others felt that the rookies would tend to be timid and that the real danger would be the seasoned drivers who would be "going for it." It turns out that the latter was correct with several of the experienced drivers altering the landscape at the edges of the track!
